OUR PROFILE

DASTERI is an innovative Automotive Lighting manufacturer based in Greece, since 1976.

— Productivity and Innovation

By constantly investing in highly qualified staff and new technologies our company is today an established European company that exports its products to 48 countries and multiple distribution points around the world. Dasteri products are manufactured according to the specifications of the Quality Management System for Automotive Sector IATF 16949:2016, Quality Management System ISO 9001, Environmental Management System ISO 14001:2015 and Health & Safety Management System ISO: 45001:2018 to fully meet the requirements of European and international markets

— Growth and Development

Today, Dasteri possesses the necessary experience and expertise since it has completed a large variety of projects with utter success through open and international tenders. With a commitment to research and planning for innovative services and products, Dasteri continues to make large investments in terms of means and efforts to meet the market requirements in the best possible way.

Dasteri's success is the result of continuous research for quality at every stage of production. The company has a large number of professionals who have the know-how in design, production and marketing in order to service our customers.

— Vertically Integrated Production

Both NIK. DASTERIDIS SA (MFG) and DASTERI SYSTEMS SA, by investing in pioneer technology, have managed to address their customers needs in the best possible way. All the products are manufactured in two completely self-sufficient, privately-owned production facilities of 15.500 square metres:

- Research and development department where solutions for the ever changing market requirements, new ideas, materials, design and construction techniques are developed.
- Study and design department that provides solutions to customer needs.
- Fully equipped moulding department with software and cutting-edge generation CNC machines.
- Expert production and assembly units equipped with new generation machines and staffed with the most qualified and trained personnel.
- Quality control department where tests are performed in order to ensure that our products fully meet the European and international standards.
- Customer service which aims to resolve problems and to satisfy the needs of our customers.

OUR PRINCIPLES

Our position as a leading company opens up unique opportunities for us to contribute to a sustainable future.

— High Quality Service

Fostered by reliable cooperation with our customers, our unremitting service to their needs aims not just to solve problems but to thoroughly meet their contemporary demands, too.

Our professionalism combined with friendly and prompt service are the principles that best describe our identity and designate our relationship with all our partners and customers; principles that define every contact we make with them.

— Responsibility and Reliability

Our main concern is the consistency with which we treat every customer, but also the environment in general. With respect and sincerity we commit to our promises in terms of delivery and outcome, thereby nurturing personal relationships of mutual trust with our customers.

Respect for the environment and its protection, as well as contribution to social issues, are matters integrated into our operating principles and philosophy. For this reason, our production processes are environmentally friendly and undertaken with full awareness to ensure ecological protection standards.

— Corporate Quality

The success of NIK. DASTERIDIS SA (MFG) and DASTERI SYSTEMS SA is the result of a continuous research for quality in every step of the productive process. All NIK. DASTERIDIS SA (MFG) and DASTERI SYSTEMS SA products consist of the most excellent quality according to the requirements of ISO 9001:2015, IATF 16949:2016, ISO 45001:2018 and ISO 14001:2015 Quality Management Systems and the international models and correspond completely to the requirements of the international market

The attentive selection of the materials, the adaptation of effective methods and the strict inspection of the productive circle, constitute the quality guarantee of all Dasteri products.

— Customer-Centered Philosophy

The continuous service of the customer's needs and the professional co-operation, aims to provide solutions to their problems and to meet with the best possible way their contemporary demands. The high quality services that NIK. DASTERIDIS SA (MFG) and DASTERI SYSTEMS SA provide to their customers, confirm the choice and satisfy their requirements and expectations.

WARNING LAMPS

LED FLASHING BEACON / DSL-450 SERIES

TECHNICAL SPECIFICATIONS

Operating Voltage:	10-30V DC
Operating Temperature:	-40 °C to +65 °C
Consumption:	From 14 to 28W (depends on the flashing frequency)
Reverse polarity protection:	Yes
Flashing Frequency:	10 Flashing Patterns
Flash rate:	150 fpm (single flash)
Type of Protection:	IP67
Lens:	Polycarbonate

WITH FLAT BASE

REF. No	
DSL-450.05	Clear lens, Amber LEDs
DSL-450.06	Clear lens, Red LEDs
DSL-450.08	Clear lens, Blue LEDs

REF. No
SET-F-1,5 For 1,5mm PINS

FEMALE CONNECTOR

REF. No
SET-F-2094

For rear lamps R-2094SR and L-2095SR

MODULE BOX FOR SIDEMARKER / D.I.

REF. No
DSL-MDI

Module Box for Sidemarker and Direction Indicator (dual usage). Multivoltage 10-30V DC,
One module box needed for both lines

LOAD MODULE FOR REAR LAMPS

REF. No
DSL-MDL.S Plug & Play

NUMBER PLATE KIT FOR REAR LAMPS

REF. No
SET-601NPL Number Plate included

ECE APPROVED

ADAPTOR FOR END-OUTLINE OR SIDEMARKER LAMPS

REF. No
SET-620 Screws are included

CREATE YOUR OWN WIRING KIT

- Step 1:** Choose **WIRING KIT** version from drawings
- Step 2:** Choose **TAIL LAMP** from **A** LIST
- Step 3:** Choose **SIDE MARKER LAMP** from **B** LIST
- Step 4:** Choose **MARKER LAMP** from **C** LIST
- Step 5:** Choose **END-OUTLINE MARKER LAMP** from **D** LIST
- Step 6:** Choose **NUMBER PLATE LAMP** from **E** List

Examples of final Ref codes:

WKJ - A5B2C1D2E3 or **WK - A5B2C1D2E4**

For **Junction Box** version
choose **WKJ-**

For **Non-Junction Box** version
choose **WK-**

CREATE YOUR OWN WIRING KIT

* The above mentioned Dasteri lamps are indicative. Any combination of Tail, Side Marker, Front Position, End-Outline marker lamps is available upon request. ** For custom wire dimensions please contact us.
